

The **WerkMaster™ Model 1400C—Europa** is designed to meet the needs of today's professional concrete polishing and restoration contractor. Powerful enough to grind, polish, edge and buff any concrete surface including terrazzo and all natural stone products.

Virtually eliminates edging as you can grind, polish, edge and buff to within **1/8" from the wall and under counter tops** right back to the kick plate!

Ideal for garage floor restoration, residential and small commercial applications, the **Europa** features

**WerkMaster's**

Patent Pending

**Octi-Disc Technology**

. Its variable frequency drive allows you to run as slow as 750 rpm which is an excellent buffing speed, then rev it up to become a high speed burnisher while edging , grinding and polishing as fast as

**2000 rpm**

!

Job too big, then Gang together 2 **Europas** for an impressive **4 Square Feet of coverage!**  
Twice the production – 1/2 the Labour!

Fast, agile, easy and fun to operate, test drive the **Europa** and see how quickly you too can improve your bottom line profits! WerkMaster – Taking it to the Wall!!
