HUNTERSVILLE, N.C., April 22, 2022 /PRNewswire/ -- Clean power technology innovator ONYX Systems announced an expanded lineup of near zero emission propane and zero emission battery powered floorcare equipment, benefiting facilities with more environmentally friendly solutions that increase productivity and cleaning results.

"ONYX has provided thousands of contract cleaners, shopping centers, schools, and municipalities with eco-friendly solutions that dramatically improve productivity and cleaning results. Our expanded lineup of both propane and battery powered equipment now offers more options to reduce carbon emissions while creating cleaner, healthier, and safer facilities."

ONYX recently added a 708cc near-zero emission propane powered floor polisher/burnisher to its floorcare line, the JX-700 Propane Burnisher (shown below), and is delighted to announce the launch of its first zero-emission battery powered floor
