Compact Design. Lithium Power. Big Results.

HUNTERSVILLE, N.C., Feb. 3, 2026 /PRNewswire/ -- In environments where every inch matters, ONYX introduces the **DX15** walk-behind floor scrubber, engineered to deliver professional-grade cleaning power in tight commercial spaces. The DX15 is now in stock and available to purchase through ONYX approved distribution partners. This redesigned, next-generation machine sets a new benchmark for compact commercial cleaning, offering a solution for facilities with limited storage and demanding efficiency requirements. For detailed information on the **DX15**, visit <https://www.onyxolutions.com/shop/dx15-battery-autoscrubber-15-in-74913>.

Lithium Battery Powered DX15

Compact storage with fold-forward handle.

Smarter Design, Easier Ownership

The **DX15** is designed for optimal functionality and convenience. Its standout innovation is a fold-forward, nesting handle that collapses tightly against the machine, simplifying transport and storage in small closets, back rooms, or service vehicles. This space-saving design is ideal for operations where efficiency and compact footprints are critical.

Operators benefit from the **DX15**'s intuitive design, featuring simple controls, ergonomic geometry, and excellent balance. A 15-inch working width, pivoting brush head, and precision water control enable aggressive yet smooth cleaning, reaching right up to edges and fixtures with minimal effort. An onboard LED headlight enhances visibility and safety, making the **DX15** easy to use for all experience levels.

"The DX15 delivers best-in-class value. Its unique fold-forward, nesting handle and user-friendly controls make storage easy and operation intuitive for all", said Stuart Proctor, Marketing VP. "Customers will find it efficient, powerful, and a joy to own, maximizing cleaning potential from small retail to commercial kitchens."

Lithium Power for Consistent Performance

At the core of the **DX15** is a Lithium Iron Phosphate (LFP) battery, providing consistent, full power from start to finish without voltage drop or performance fade. This advanced battery technology ensures long run times, fast charging, lighter overall machine weight, and exceptional battery longevity, ensuring the **DX15** is always ready for demanding tasks.

Key Features

- **Foldable, Nesting Handle:** Collapses tightly for easy transport and storage in very small spaces.
- **Ergonomic Handle Geometry:** Adjustable height to accommodate operators of different sizes.
- **Simple Operation:** Intuitive controls and excellent maneuverability.
- **Precision Water Control:** Mechanical ball valve allows easy adjustment from the operator position.
- **Pivoting Brush Head:** Innovative, spring-loaded design ensures consistent, flush floor contact.
- **Floating Head Skirt:** Eliminates wall and fixture splatter.
- **Easy Rock-Back Design:** Optimized balance allows a single operator to easily change pads or transport the machine.
- **Onboard Charger:** Convenient, built-in charging.
- **Industrial Squeegee Assembly:** Cast aluminum body with stainless steel strap and tool-less blade changes.
- **Premium Squeegee Blades:** Streak-free pickup and long service life.
- **Durable Brush Head:** Rotationally molded plastic for maximum durability.
- **Integrated Headlight:** Illuminates the work area for improved visibility and safety.

The **DX15** delivers a best-in-class specification at a competitive price point, demonstrating that compact machines can offer high performance, durability, and features without compromise. It is suited for convenience stores, small retail spaces, pharmacies, restaurants, commercial kitchens, and other tight commercial environments.

This introduction of the **DX15** walk-behind floor scrubber marks the beginning of a major evolution in the ONYX product lineup. Over the next 18 months, ONYX will continue expanding its portfolio with lithium-ion powered versions of its floor scrubbers and several all-new machine designs, delivering smarter, cleaner, and more efficient solutions across every category.
